Once invasive plants spread to natural areas, they harm native plants and cost our region millions of dollars in lost agricultural production, environmental degradation and NOXIOUS WEEDS are a danger to our environment and the economy. These introduced species

KING COUNTY'S **Noxious Weed Control Program**

The Program protects the natural and economic resources of county residents. We ensure that noxious weeds that are regulated in King County are controlled. Our weed specialists teach property owners to identify and control noxious weeds so they do not spread to other properties. We make sure public agencies control regulated noxious weeds on roads and public lands to reduce impacts to public resources and prevent spread to neighboring lands.

If you are unsure how to identify or control a regulated noxious weed or have a hardship that prevents you from doing so, the program can provide assistance. If a property owner refuses to control a regulated noxious weed, state law authorizes the county weed board to pursue control through a notice of violation and, if necessary, bill the landowner for the control cost. We work to avoid this and we do all we can to help landowners find a solution that works for them.

DEFINITIONS (RCW 17.10, WAC 16-750)

Noxious Weed - a non-native plant that when established is highly destructive, competitive, or difficult to control

Control - in a given year, prevent all seed production and dispersal of all propagative parts capable of forming new plants.

Eradicate - completely eliminate a noxious weed within an area of infestation.

THE NOXIOUS WEED PROGRAM IS HERE TO HELP:

- Technical assistance with ID and control
- Free workshops and info booths at events
- Brochures, fact sheets and weed guides
- Control assistance for high priority weeds • Disposal vouchers for regulated weeds
- Weed pullers and knotweed injectors for loan

OUR MISSION:

To provide benefits to the environment, recreation, public health and economic resources of King County by preventing and minimizing harmful impacts of noxious weeds.

You can help fight noxious weeds by planting only non-invasive plants, disposing of noxious weeds responsibly, reporting infestations of regulated noxious weeds that are not being controlled, and controlling weeds on your own property. Thank you for helping!

Noxious Weed Control Program

2016 KING COUNTY NOXIOUS WEED LIST The King County Noxious Weed Control Board has adopted this Noxious Weed List in accordance with RCW 17.10 and WAC 16-750.

REGULATED CLASS A WEEDS: These weeds are the highest priority in the state due to their significant potential impact and limited distribution. Property owners throughout Washington are required to eradicate Class A weeds.

	9 1	
	COMMON NAME	SCIENTIFIC NAME
	common crupina ⁶	Crupina vulgaris
	• cordgrass, common ⁶	Spartina anglica
	cordgrass, dense flower ⁶	Spartina densiflora
	cordgrass, salt meadow ⁶	Spartina patens
	cordgrass, smooth ⁶	Spartina alterniflora
	 dyers woad ⁶ 	Isatis tinctoria
	eggleaf spurge ^{1, 6}	Euphorbia oblongata
	• false brome ⁶	Brachypodium sylvaticum
ш	 floating primrose-willow 6 	Ludwigia peploides
\simeq	flowering-rush ⁶	Butomus umbellatus
_	• French broom ^{1, 6}	Genista monspessulana
_	• garlic mustard ⁶	Alliaria petiolata
	 giant hogweed ^{1, 6} 	Heracleum mantegazzianum
	ogoatsrue 1, 6	Galega officinalis
\cup	0 hydrilla ⁶	Hydrilla verticillata
Ш	Johnsongrass ^{1, 6}	Sorghum halepense
\sim	 knapweed, bighead ⁶ 	Centaurea macrocephala
_	knapweed, Vochin ⁶	Centaurea nigrescens
	kudzu ⁶	Pueraria montana var. lobata
_	meadow clary ⁶	Salvia pratensis
	oriental clematis ⁶	Clematis orientalis
\cup	purple starthistle ^{1, 6}	Centaurea calcitrapa
$ \mathcal{L} $	Ravenna grass	Saccharum ravennae
_	• reed sweetgrass ⁶	Glyceria maxima
	ricefield bulrush ⁶	Schoenoplectus mucronatus
Z	o sage, clary ⁶	Salvia sclarea
	sage, Mediterranean ⁶	Salvia aethiopis
\cup	silverleaf nightshade ^{1, 6}	Solanum elaeagnifolium
()	 Spanish broom ^{1, 6} 	Spartium junceum
<u> </u>	spurge flax ⁶	Thymelaea passerina
	Syrian beancaper ⁶	Zygophyllum fabago
	Texas blueweed ⁶	Helianthus ciliaris
	thistle, Italian ⁶	Carduus pycnocephalus
	• thistle, milk ^{1, 6}	Silybum marianum
	thistle, slenderflower ⁶	Carduus tenuiflorus
	variable-leaf milfoil ⁶	Myriophyllum heterophyllum
	wild four o'clock ⁶	Mirabilis nyctaginea

REGULATED CLASS B WEEDS: Class B weeds are regulated in counties where they are limited in distribution or where they are a local priority. The following Class B weeds have been designated for control in King County by the State Weed Board or selected by the King County Weed Board. Property owners in King County are required to control these species.

COMMON NAME	COMMON NAMI
blueweed; viper's bugloss ^{1, 6}	Echium vulgare
Brazilian elodea ^{3, 6}	Egeria densa
bugloss, annual	Anchusa arvensis
● bugloss, common ⁶	Anchusa officinalis
camelthorn	Alhagi maurorum
common reed (non-native genotypes)	Phragmites australis
Dalmatian toadflax ⁶	Linaria dalmatica ssp. dalmatica
fanwort ⁶	Cabomba caroliniana
gorse ⁶	Ulex europaeus
grass-leaved arrowhead 6	Sagittaria graminea
hairy willowherb ⁶	Epilobium hirsutum
 hawkweeds; All non-native species and hybrids of the meadow subgenus ^{5, 6} 	Hieracium, subgenus Pilosella
• hawkweed, European ^{5, 6}	Hieracium sabaudum
 hawkweed, orange ⁶ 	Hieracium aurantiacum
hawkweed oxtongue	Picris hieracioides
hoary alyssum	Berteroa incana
houndstongue ¹	Cynoglossum officinale
indigobush ⁶	Amorpha fruticosa
knapweed, black ⁶	Centaurea nigra
knapweed, brown ⁶	Centaurea jacea
knapweed, diffuse ⁶	Centaurea diffusa
knapweed, meadow	Centaurea x moncktonii
knapweed, Russian ¹	Acroptilon repens
knapweed, spotted ⁶	Centaurea stoebe
kochia ⁶	Kochia scoparia
loosestrife, garden ⁶	Lysimachia vulgaris
loosestrife, purple ⁶	Lythrum salicaria
parrotfeather ⁶	Myriophyllum aquaticum
perennial pepperweed ⁶	Lepidium latifolium
policeman's helmet ⁶	Impatiens glandulifera
rush skeletonweed	Chondrilla juncea
saltcedar ⁶	Tamarix ramosissima
 shiny geranium ⁶ 	Geranium lucidum

COMMON NAME	COMMON NAME
 spurge, leafy ^{1, 6} 	Euphorbia esula
sulfur cinquefoil	Potentilla recta
• tansy ragwort ^{1, 6}	Senecio jacobaea
o thistle, musk ⁶	Carduus nutans
• thistle, plumeless ⁶	Carduus acanthoides
• thistle, Scotch ⁶	Onopordum acanthium
• velvetleaf ⁶	Abutilon theophrasti
o water primrose ⁶	Ludwigia hexapetala
white bryony ¹	Bryonia alba
• wild chervil ^{1, 6}	Anthriscus sylvestris
 yellow floatingheart ⁶ 	Nymphoides peltata
yellow nutsedge	Cyperus esculentus
 yellow starthistle ¹ 	Centaurea solstitialis

REGULATED CLASS C WEEDS:

Class C weeds are generally widespread, but may be selected on a local level. The following Class C weeds have been selected by the King County Weed Board based on potential threats and feasibility of control. Property owners in King County are required to control these species.

COMMON NAME	SCIENTIFIC NAME
 absinth wormwood ¹ 	Artemesia absinthium
buffalobur 6	Solanum rostratum

NON-REGULATED NOXIOUS WEEDS: The following Class B and C weeds from the state noxious weed list also impact the county, but are already widespread. Property owners in King County are not required to control these species, but control is recommended where feasible.

WEEDS OF CONCERN:

The following plant species are not listed as noxious weeds under state law and property owners are not required to control them. However, the King County Weed Board recognizes these non-native plants as invasive, recommends control or containment of existing populations, and discourages new plantings. King County's Critical Areas Ordinance cites this list, formerly known as the Obnoxious Weed List, as invasive vegetation that threatens native ecosystems by displacing beneficial vegetation and degrading wildlife and native plant habitat. The Noxious Weed Control Program provides education and outreach services for these weeds (as authorized by RCW 17.10.090).

COMMON NAME	SCIENTIFIC NAME
bird cherry	Prunus avium
bishop's weed	Aegopodium podagraria
 bittersweet nightshade ¹ 	Solanum dulcamara
black locust	Robinia pseudoacacia

multiflora rose	Rosa multiflora
spotted jewelweed	Impatiens capensis

LEGEND

- Known to occur in King County
- Historically present, but thought to be eradicated

Weeds in bold are new to the list this year

FOOTNOTES:

- ¹ Reported to be toxic to livestock and/or humans. Sources: USDA Poisonous Plant Research Laboratory, USDA Natural Resources Conservation Service, WA State Weed Board. This list is for general information only and may not be all-inclusive. Contact a medical professional for information about symptoms and treatment.
- ² Control of Scotch broom is required on the right-of-way of King County's section of SR-2 and on the I-90 right-of-way between mile marker 34 and the King/Kittitas County line.
- ³ Brazilian elodea is designated for control throughout King County except in Lake Washington, Lake Sammamish, Lake Union, Lake Fenwick, Lake Doloff and the Sammamish River.
- ⁴ Control of Bohemian, Japanese, giant and Himalayan knotweed (Polygonum xbohemicum, P. cuspidatum, P. sachalinense, P. polystachyum) is required on the Green River and its tributaries above the Auburn City Limits and on the Cedar River and its tributaries above the Renton City Limits (tributaries included are those defined as Type S, F or N aquatic areas in KCC 21A.24.355). Control of these invasive knotweed species is required up to the ordinary high water mark (or to the top of the bank if the ordinary high water mark cannot be identified) and in the adjacent buffer area as specified in KCC 21A.24.358. This requirement to control knotweed is contingent upon the noxious weed program or program partners providing knotweed control services in the selected area for affected private land landowners who request assistance.
- ⁵ Non-native yellow-flowered hawkweeds (Hieracium species) are consolidated into two listings by subgenus: meadow (Pilosella) and wall (Hieracium). Control of species in the meadow group is required in King County. Control of species in the wall group is not required in King County with the exception of European hawkweed (Hieracium sabaudum).
- 6 Quarantine species. It is prohibited to transport, buy, sell, offer for sale, or distribute plants, plant parts or seeds of this species within the state of Washington. Noxious Weed Seed and Plant Quarantine, WAC 16-752-600. Contact Washington State Department of Agriculture for complete list.
